Dear Raphaela,

Tuesday I got a copy of Posner statement to a House committee. Wednesday I mailed Richard an Epilouge based on it. (Perhaps it should be Chapter XXXII)Yesteday I got - from California - what I use for two insertions that are enclosed that I wrote this morning. I send these now because it seems probably that will eliminate the need to insert them after you have done the retyping.

I have begun to prepare other insertions for the most part based on what I did not have when I did the writing.

I'll hold them until I get the remainder to read. I'll then be able to indicate where they go on your pages.

That I am so very, very anxious to get!

I hope you all have the best of holiday seasons!

Sincerely,

Harold
